

Intro to Prakt. Network Security

Network Security
Politeknik Elektronika Negeri Surabaya
2010

Silabus

- 1. Pengenalan materi
- 2. Scanning dan Probing
- 3. Password Management
- 4. Firewall (iptables)
- 5. Firewall (TCPWrapper)
- 6. Network Attack & Session Hijacking
- 7. Intrusion Detection System : Portsentry
- 8. Intrusion Detection System : Snort

- 9. Intrusion Detection System: Tripwire
- 10. Symmetric cryptography
- 11. Pretty Good Privacy (PGP)
- 12. Web Security
- 13. IPSec (IP Security)
- 14. VPN (Virtual Private Network)
- 15. Security pada Wireless
- 16. Post Test

Tata Tertib

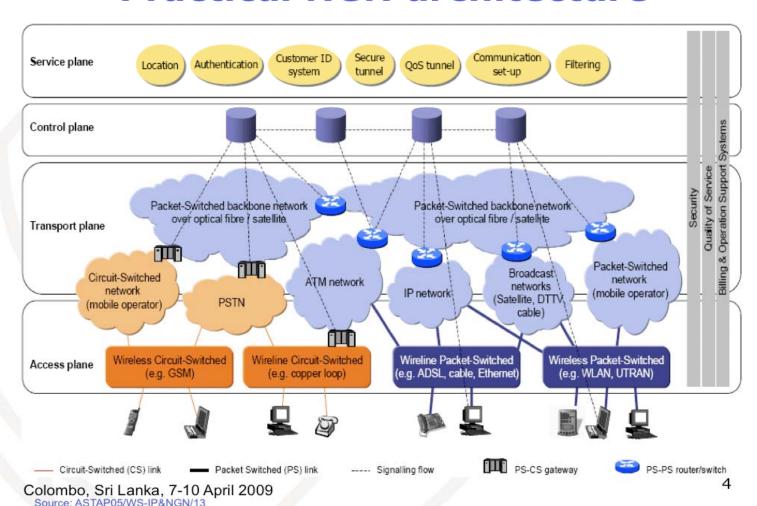

- Datang Tepat waktu toleransi keterlambatan 15 menit dari pelajaran dimulai
- Harus membawa buku petunjuk praktikum
- Mengumpulkan Laporan Pendahuluan sebelum praktikum.
- Mengumpulkan Laporan Resmi.
- Pakaian rapi bersepatu, dan jas lab.
- Ketidakhadiran harus ada ijin tertulis.
- Menjaga kebersihan dan kerapian Lab.
- Komputer harus dimatikan setelah kuliah berakhir.
